Whereas, The City of Circleville owns and operates a public water system, is obligated and required under the laws of the State of Ohio to conduct or cause to be conducted periodic surveys and testing of backflow prevention devices of customers of the public water system to determine whether there are actual or potential cross connections through which contaminants or pollutants could backflow into the public water system, and to ensure that the backflow prevention devices installed on customer premises are tested and found to be in satisfactory operating condition in accordance with OAC 3745-95-06. Now, therefore, it is mutually agreed upon between the parties as follows:
